This small to medium size steak, taken from the second most tender beef muscle, is rapidly becoming a favorite of any person that desires a tender juicy steak that is bursting with flavor. This cut was developed by the research teams of the University of Nebraska and the University of Florida. Flat iron steaks (also misspelled Flatiron) usually have a significant amount of marbling which makes it excellent for grilling, broiling or pan frying. Steaks processed in Nebraska, where they know good meat, that's great for grilling on your grill at home or at a tailgate party. Certified Star Ranch Angus Beef.
